

Newport Clean City Program compost bin order form

\$45 EACH FOR NEWPORT RESIDENTS!

(RETAIL PRICE IS OVER \$100)

These black soilsaver compost bins feature a rugged black plastic construction that holds heat inside while resisting weather and UV rays. It also features holes in the top to allow rainwater in for ideal moisture content and two bottom access panels to harvest compost. For easy assembly, rust-free nylon bolts are included. The bins can hold 11.4 cubic feet or 85 gallons of organic matter and measure 30" high and 28" wide and long.

Newport residents can benefit from composting by recycling organic materials such as food scraps, garden and yard waste into a rich soil that can be added to your plants and grass without the use chemical fertilizers.

Compost bins come unassembled and will fit into any trunk or backseat.
